

SAE International Event to Offer Latest in Braking and Brake Systems Technologies – Sept. 25-28 in Scottsdale, Arizona

Obtain the most critical and up-to-date information on braking and brake systems for OE and aftermarket customers and end users at the 34th Annual SAE 2016 Brake Colloquium & Exhibition.

WARRENDALE, Pa. ([PRWEB](#)) August 04, 2016 -- Obtain the most critical and up-to-date information on braking and brake systems for OE and aftermarket customers and end users at the [34th Annual SAE 2016 Brake Colloquium & Exhibition](#).

The colloquium, which will be held Sept. 25-26, 2016, at The Westin Kierland Resort & Spa in Scottsdale, Arizona, USA, will cover critical developments in both the ground vehicle and motorcycle industries.

In addition, the event offer attendees:

- The latest industry/market news on OEM, Tier 1, 2 & 3 brake technology
- Insights on emerging markets
- Updates from OEMs on their requirements
- Industry leadership addressing the challenges of meeting customer needs
- Panel discussions featuring lessons learned and future advancements
- Global aftermarket Updates

Nowhere else in North America can individuals looking for the science and technology of brakes come together and make the critical connections that will improve job performance by networking with experts in the brake community.

SAE International is a global association committed to being the ultimate knowledge source for the engineering profession. By uniting over 127,000 engineers and technical experts, we drive knowledge and expertise across a broad spectrum of industries. We act on two priorities: encouraging a lifetime of learning for mobility engineering professionals and setting the standards for industry engineering. We strive for a better world through the work of our philanthropic SAE Foundation, including programs like A World in Motion® and the Collegiate Design Series™.
