

DEVOLRO Announces Addition of Ford F-Series to Its Custom Tuning Portfolio

DEVOLRO, known for its custom tuning packages for Toyota Tundra models, has announced a new, custom tuning package for Ford lovers, available in April of 2018

MIAMI ([PRWEB](#)) February 21, 2018 -- DEVOLRO, known for its custom tuning packages for Toyota Tundra models, has announced a new, custom tuning package for Ford lovers, available in April of 2018.

“After huge success with Toyota, we received many requests from Ford truck owners to create a DEVOLRO package for the most popular pickup truck in America,” stated Eduard Orlov, President of DEVOLRO. “Listening to the wants of potential customers, we have shifted gears to add a new Ford F-Series to our custom turning portfolio. Currently, we are working on our first 2018 FORD F-150 Shelby by DEVOLRO edition.”

DEVOLRO’s new Ford F-150 package will include features such as:

- Line-X polymer coating for the entire truck body
- DEVOLRO 7" custom suspension lift kit
- Custom DEVOLRO Real Steel Bumpers, both front and rear
- Water package with snorkel
- Soundproof and heat protection package
- DEVOLRO wheels and off-road tires
- Skid plate protection
- Custom heavy-duty bed topper
- LED light bar

Additional options will include B6 armor package, heated bed floor, auxiliary fuel tank and much more.

It all starts with looks: DEVOLRO tuning has a unique muscular look while at the same time having a brutal, manly, and elegant personality. When driving DEVOLRO in the city, you can be sure that you’ll get more attention than a red Ferrari or green Lamborghini does; when you’re back off-road, there is simply nobody to compete with.

DEVOLRO’s major competitive advantage is the balance between all major upgrades and components of the Truck. For instance, when a set of heavy-duty bumpers, winches, and heavy-duty steel step bars are installed with a total gross weight increase of 850 pounds, DEVOLRO ensures to include this extra weight calculation when designing DEVOLRO custom suspension.

“As the best-selling vehicle in the United States since 1981 as well as in Canada, the Ford F-Series was an obvious next step for us,” continued Eduard Orlov. “We’re not stopping here, though. With the Ford F-Series tuning package in production, we’re now working on a Toyota Sequoia special tuning package as well as creating custom tuning packages for Chevy Silverado, GMC Sierra, Dodge RAM, and beyond.”

About DEVOLRO

DEVOLRO Performance Trucks Studio is elite American manufacturer of custom high quality, off-road specialty equipment. With its own professional production facility, DEVOLRO builds luxurious pickup trucks with superior off-road capability as well as comfort, style, and durability. All DEVOLRO products are manufactured in the United States of America from the highest grade local materials. [Learn More About DEVOLRO](#)
