

## **Black Rhino Aftermarket truck wheels introduces the Rumble**

*The Black Rhino Rumble is a fresh, flat profiled, minimal six spoke off road wheel inspired by the infamous Rally racing sport. The Rumble's clean rally rim design is a direct evolution of Black Rhino's Boxer - one of Black Rhino's most popular off road rims within Black Rhino's Rally lineage.*

BREA, Calif. ([PRWEB](#)) January 14, 2020 -- The Black Rhino Rumble is a new, flat profiled, minimal six spoke off road wheel inspired by the infamous Rally racing sport. The Rumble's clean rally rim design is a direct succession of Black Rhino's Boxer - one of Black Rhino's most popular [off road rims](#) within Black Rhino's Rally lineage.

### Rumble in the Jungle

Easy on the eyes and tough on ground, the Black Rhino Rumble is a jack-of-all-trades eager to show its prowess on Rally roads and overland adventures alike. Confident bold spokes show off Black Rhino's virtuosic perfection in imposing just the right proportions. A distinct beveled edge surrounds the window perimeter, while the deep step-lip provides additional wheel strength in the right places. Regardless if its backcountry, through the country or to the countryside, the Black Rhino Rumble are off road rims that bring the Rally aesthetic to life wherever your exploring.

Built to take on all kinds of challenging roads, these [off road wheels](#) are constructed of Black Rhino's proven high-strength refined hardened alloy - a superbly strong and lightweight technology perfected over the decades. Versatile in application as [truck rims](#) and [off road wheels](#), the Rumble is equally at home on crossovers and rally inspired builds. Black Rhino Rumble - the off road wheels that know no boundaries.

New for 2019, Black Rhino is introducing an exclusive Olive Drab Green finish to complement three additional standard finishes; Gloss Gold, Gunblack, and Bronze. The Black Rhino Rumble off road rims are available in 15x7 and 16x7 sizes for overland Subaru vehicles such as Crosstrek XV, Legacy, Impreza, Forester, Outback and WRX. It is also available in 17x8 for a variety of other vehicles including the Subaru BRZ, Ford Fiesta, Focus ST, FRS, STI and WRX. Additionally, due to demand, the Black Rhino Rumble truck rims are also being released in a 17x8.5 size for 5x127 Jeeps and 6-lug trucks with a deeper lip profile compared to the original sizes.

Discover all of Black Rhino's off road wheels and [truck wheels](#) by visiting the simple to use online Fitment Guide on our website to see all possible off road wheels based on year, make and truck model. The Fitment Guide will also introduce visitors to all other important technical details that are significant, such as offset (positive, neutral or negative), load carrying ratings and live factory warehouse inventory levels.

The company's website [www.blackrhinowheels.com](http://www.blackrhinowheels.com) includes helpful dealer locator tools, by zip code in the United States and internationally. The website also features dealer support tools, including online access to the live inventory in Black Rhino's new 155,000 sq. ft. headquarters in Brea California. For dealers, all Black

Rhino truck rims can be ordered on the website and orders received by 4pm ET are shipped the same day.

Black Rhino, an off road rims manufacturer with a South African heritage, donates a portion of all Black Rhino truck wheels' sales to combat the complex Rhino poaching crisis in South Africa. That means the impact of your purchase and passion goes beyond truck rims themselves - it enables the conservation efforts that help protect the native Black Rhino from extinction.
