

## **Capital Honda Offers an Online Tire Source Shop for Drivers in the Charlottetown area**

*Drivers looking for a new set of tires or wheels can shop online with Capital Honda*

CHARLOTTETOWN, P. E. I. ([PRWEB](#)) February 27, 2020 -- Capital Honda is a Honda dealership in Charlottetown that offers vehicle service and parts. Currently, the dealership is promoting its online Tire Source shop, which can help drivers get a quote on new tires and wheels for their vehicles.

Drivers who are interested in getting a quote on a new set of tires or wheels for their vehicles are encouraged to try out the Tire Source shop on the dealership's website, [capitalhonda.com](http://capitalhonda.com). The [Tire Source page](#) can be found under the "Service" drop-down menu at the top of the website. Clicking that will load the first step in the Tire Source shop, which gives customers the choice to find tires or find wheels.

To use Tire Source with Capital Honda, customers will need to input basic information about the vehicle which they are purchasing parts for. After selecting either wheels or tires on Tire Source, customers will be asked what year their vehicle is, then what make it is and finally what model their vehicle is. They may even be prompted to select a trim level. Once all vehicle information is filled out, Tire Source will automatically come up with a complete list of possible wheels and tires that can be purchased through Capital Honda. Clicking on the "Add to quote" button allows customers to get a quote on the price of the tires and wheels they are interested in.

Customers can also find a form to [schedule vehicle service](#) on the dealership's website. Vehicle services include tire and wheel services.
