

Alexander Toyota offers certified pre-owned vehicles to give drivers peace of mind.

Yuma area drivers can find a used car that is guaranteed to run and drive healthily.

YUMA, Ariz. ([PRWEB](#)) February 23, 2020 -- Most drivers might not consider the differences between a pre-owned vehicle and a certified pre-owned vehicle. A pre-owned vehicle is essentially any used car on the lot. A certified pre-owned is one that has been tested and inspected in various different ways. These cars have been put through a rigorous inspection to make sure it's in good condition. Alexander Toyota wants drivers to be confident this car will last, so their technicians pour over every detail of a car. If it doesn't pass their inspection, it doesn't become a certified pre-owned. Toyota certified pre-owned vehicles also can't be over six years old or have more than 85,000 miles on them.

Alexander Toyota also includes a 12-month/12,000-mile limited comprehensive warranty as well as a 7-year/100,000-mile powertrain warranty. A certified pre-owned vehicle also comes with a year of roadside assistance and a free CarFax history report. Drivers can have a certain amount of confidence leaving the dealership in a certified pre-owned.

Drivers interested in purchasing a certified pre-owned vehicle are encouraged to visit Alexander Toyota and its website to view its inventory of certified pre-owned vehicles. The dealership also has a text chat option for customers who want immediate answers to their questions. Alexander Toyota also has a physical location at 889 E 32nd St, Yuma, AZ, 85365. Customers can call the dealership at 928-344-1170 for customers to call and reach out to.
