

New Hyundai versus Nissan model comparison research pages added to Coastal Hyundai website

New Hyundai versus Nissan model comparison research pages added to Coastal Hyundai website

MELBOURNE, Fla., Jan. 2, 2018 /PRNewswire-iReach/ -- Coastal Hyundai, a dealership in Melbourne, Florida, that specializes in all things Hyundai, strives to give its customers an easy and hassle-free car-buying experience. And the dealership wants that carefree experience to begin before its customers ever step foot on the lot.

The dealership is able to do this thanks to its state-of-the-art website, which houses multiple automotive research tools that customers can use to begin shopping for their new Hyundai car or SUV without ever having to leave the comfort of their own home. And that slate of research tools grew even bigger this month thanks to the addition of three new Hyundai versus Nissan model comparison research pages.

These new research pages compare new 2018 Hyundai models to their 2018 Nissan counterparts in terms of starting price, engine options, horsepower ratings, torque ratings, gas mileage ratings, interior passenger space, interior cargo space and warranties.

The new comparison research pages added this month include the [2018 Hyundai Elantra versus the 2018 Nissan Sentra](#), the [2018 Hyundai Sonata versus the 2018 Nissan Altima](#) and the [2018 Hyundai Tucson versus the 2018 Nissan Rogue](#).

These new information pages join numerous other automotive research tools on the Coastal Hyundai website. Additional research tools include the [Coastal Hyundai Blog](#) and the [Coastal Hyundai Model Information Page](#).

All of these automotive research tools and more can be found at www.coastalhyundai.com. Customers who want even more information are encouraged to give the Coastal Hyundai staff a call at 888-928-4762. Coastal Hyundai is located at 915 New Haven Avenue in Melbourne, FL.
