THE

NEGRO MOTORIST

GREEN BOOK

ESTABLISHED BY
WILLIAM H. GREEN
EDITOR

JOHN C. DELLARD
CIRCULATION MGR.

INTRODUCTION

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon.

There are thousands of places that the public doesn't know about and aren't listed. Perhaps you might know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists.

You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists on some of these places more, so as out of business and new business places are started giving added employment to members of our race.

When you are traveling mention "The Green Book" so as to let these people know just how you found out about their place or business. If they haven't heard about this Guide, tell them to get it back with us.

If this Guide is useful, let us know, if not tell us also, as we appreciate your criticism.

If any errors are found, kindly notify the publishers so that they can be corrected in the next issue.

Published yearly in the month of April by Victor H. Green, Executive & Advertising office at 355 St. Nicholas Ave., New York, N. Y. William H. Green, Editor; John C. Dellard, Circulation Manager. Advertising Office at 125 St. Nicholas Ave., Telephone BR 2-2423.

Copyrighted - 1940 by Victor H. Green. Manuscripts submitted for publication should be sent to 355 St. Nicholas Ave., New York, N. Y., and must be accompanied by return postage. No liability can be assumed for the loss or damage to manuscripts although every possible precaution will be taken.

Subscriptions: Twenty-five cents per copy.

Advertising: For rates, Write to the publisher.

Dear Sir,

It is a great pleasure for me to give credit where credit is due. Many of my friends have joined me in admitting that "The Negro Motorist Green Book" is a credit to the Negro Race. It is a book badly needed among our Race since the advance of the motor age. Realizing the only way we have where and how to reach our pleasure resorts was in a way of speaking, by word of mouth, until the publication of "The Negro Motorist Green Book." With our wishes of your success, and your earnest efforts. We earnestly believe "The Negro Motorist Green Book" will mean as much if not more to us as the A. A. A. meant to the white race.

Respectfully Yours,

Wm. Smith.

CARD OF APPRECIATION

The Publishers of this guide wish to publicly thank the following people and newspapers who have contributed and worked to bring this Travel Guide before the public and up to date, so that we as a race might have something authentic to travel by and to make traveling better for the Negro.

Mr. James (Billboard) Jackson—Special Expt. of the Standard Oil.
Mr. Chas. A. E. McDowell—of The United States Travel Bureau.
Mr. John B. Long—of New York City, N. Y.
Mr. Elmer Jackson—of Kansas City, Mo.
Mrs. Ella Glenn—of Springfield, Ohio.
The Louisville Leader—of Louisville, Ky.
The Cleveland Call & Post—of Cleveland, Ohio.

We hope that you in reading this will tell others about this guide so that they will know of its usefulness.

We have given you a selection of listings that you might choose from, under no circumstances do these listings imply that the place is recommended.

EXPLANATION

We are making this guide as near complete as possible until such time as we can get the information from the different sections of the country.

The business classifications listed here have been arranged under the different cities and towns, so that you won't have any trouble finding what they want.

A daylight ride on a Greyhound bus from New York to Washington does not present any scenic wonders, yet it pays to keep one's eyes open. Our strongest impression arises from the contrast between the beautiful, flower-surrounded plants of General Motors and General's Gin at Linden, New Jersey; and the immense, dark, abandoned industrial plants along the Delaware River at Marcus Hook and vicinity where thousands of workers once labored and lived, but never saw any beauty of any sort.

Unless absolutely necessary, the traveler should never pass through Washington without stopping, if for only a few hours. This procedure always leaves us "soothed and sustained." At this time to such an extent that we could leave at midnight for an eighteen hour ride to Greenville, S. C., which took us through the heart of the tobacco country, and the cities of Richmond, Danville, Winston-Salem and Charlotte. Our object in visiting Greenville was to meet with the Colored Business and Professional Men's Club. This organization is thoroughly interested in creating a nationwide interest in travel. The result of this meeting was very encouraging. There was a large attendance and close attention was paid to our remarks. A number of questions were asked, which brought on a hearty discussion. Greenville lays claim to being the Textile Center of the South. We note, with special interest the Negro community, the High School, the excellent hospital facilities and many beautiful homes, owned by Negroes.

The 224 mile ride through well terraced farm lands and peach orchards to Atlanta, was highly enjoyable. Atlanta is entered through the suburbs of Decatur and the beautiful Peace de Lane Avenue. Decatur Street in Atlanta, Beale Street in Memphis, and Tennessee in Savannah have been made famous by Negroes. It was our good fortune after many years to be able to visit Decatur Street on Saturday night, don't miss this, if you ever go to Atlanta. Atlanta is the center of high education for Negroes, and here is located the Atlanta Daily World, the only Negro daily newspaper in the United States. After a good night's rest at the Butler Street Y. M. C. A., we began our Sunday ride 224

miles on the old Coastal and Georgia Railroad Over General Sherman's route to the sea).

At Savannah we visited Innes Island, about 2 1/2 miles above the City on Fippsboro' Creek. For over two years, the Government has been uncovering the pre-historic Indian village. This work is being done under the direction of Dr. Hooten of Harvard University and Dr. Caldwell is the archaeologist in charge. A laboratory and a museum have been established at this site and a large number of Negro W. F. A. workers is employed. The Mound is in a dense growth of live oaks and the scenery is superb.

"Savannah has been acclaimed by famous world travelers, as one of the most beautiful cities in the world and its rich background and heritage of history, embracing many events notable in American annals, provide it with many hallowed spots of deepest interest to the visitor." On route 17 just south of the City, of unique interest, is Coconut Grove. Here we find a modern tourist camp, amusement pavilion and the beautiful home of Mrs. Mamie Cox, maid of the late Miss Marie Devander. Banquets in the grove. All of this was provided through funds left to Mrs. Cox by Miss Devander, with the stipulation that she would hold a suitable place for the comfort of Negro teachers.

A little farther back, we returned to Savannah in Savannah. Here is located a magnificent old colonial building, First Bryan Baptist Church, founded in 1788, and one of the oldest Negro churches in North America. According to information furnished by the pastor, this Church is soon to become the focal point around which the new government housing project is to be constructed.

Anyone visiting Savannah between April 1st and October 1st, should by all means take the ride on the steamer among sea islands and through the various inlets to Beaufort, N. C. The round trip consumes about 12 hours. Most of the scenery is wild and primitive, and all of it is beautiful. The cost for the round trip is one dollar. Soon after boarding the steamer for this trip, we noticed a Colored man, exercising much authority. Crossing Port Royal Sound the only rough water on the trip looking up at the pilot house, we noticed this man at the wheel, looking ahead and calmly smoking his cigar, a white million men elsewhere. Niggers have long been associated with navigation in South Carolina waters.

Gramercy Park—Circle house number by 10 and add 75.

Always be sure you are correct, round the numbers to the block, east or west

Here in Maryland is a large house, formerly the home of Robert A. Small (Major) the famous Maryland warrior of the Civil War. At Fort Polk's National Monument, at the mouth of the Severn River, we find what is probably the largest fig tree in the world. It has a spread of 770 feet. It is 21 feet high and the yearly average production is 20 bushels of figs. Thirteen miles south of the City of Savannah is located the United States Department of Agriculture Rubber propagation farm, and a short distance further at Way Station, Georgia, Mr. Henry Ford has established his 75000 acre model community. We learned of the friendly interest he has shown in Coconut Grove.

Speeding north through Ohio, you do not open the coach windows now for a breath of air and an splash of winders. On a curve, every now and then, we could glance ahead through the clear glass and see the Seaboard's huge yellow diesel "on the job". How different!

HOW TO KEEP FROM

GROWING OLD

Always pass with locomotive in crossings. Engineers see it; he passes the memory of that job.

Always pass the car ahead on curves or turns. Don't see that, it may narrow the fellow and catch him to feet and feet far.

Demand half the road—the middle half, looks on your rights.

Always speed; it shows that you are a man of old even the an another driver.

Never stop, look or listen at railroad crossings. It causes time.

Always lock your brakes when stopping. It makes the job more artistic.

In foggy weather drive close to pedestrians. Dry cleaners appreciate this.

Never look around when you look out; there is never anything behind you.

Drive carefully. Just as the days were not eighteen million other cars in service.
